### **Petris Introduces Rover for OneCall Ticket Processing**

*PetrisWINDS™ OneCall system gains field ticket processing capabilities with addition of innovative GPS-enabled handheld, taking one call processing 'from the dirt to the desktop'.*

**HOUSTON, TX – October 11, 2004** – Petris Technology Inc., the energy industry leader in the development of vendor-neutral data management and exchange technologies, announces the release of PetrisWINDS™ OneCall Rover, an application that works with the PetrisWINDS OneCall Screening Support System to bring locate ticket processing to the pipeline. Working on a Windows CE compatible device equipped with a GPS system, locate requests are downloaded from the OneCall System to the Rover hand-held. Company locate personnel simply transport the Rover device to the field and enter the ticket data. Rover's on-board GPS system records the precise date, time, latitude and longitude, providing a verifiable audit trail that helps satisfy governmental requirements. Data is uploaded automatically when Rover is re-connected to the OneCall system.

"Rover saves money by reducing the paperwork and simplifying the overall process of closing one call tickets," says Dr. Robert Maggio, Vice President, GIS Operations. "By providing a verifiable record of the locate position, date and time, Rover advances pipeline integrity programs, helping to meet regulatory requirements. "

The PetrisWINDS OneCall Rover will be available this month for existing PetrisWINDS OneCall customers running Version 3.7 or higher of the PetrisWINDS OneCall Screening Support System.

#### **About Petris Technology, Inc.**

Founded in 1994, Petris provides practical, real-world IT-based solutions for energy clients leveraging its expertise in data management, application hosting and geospatial information systems (GIS). Through a unique vendor-neutral approach and expertise in service-oriented architecture, Petris designs and deploys innovative technology that integrates data from diverse data stores to enable better decision making and application transparency. Taken together, Petris is leading the way into a new era in integration, data and application management. For more information about Petris visit [www.petris.com](http://www.petris.com).
