John Wearing Joins Petris

HOUSTON, TX – July 24, 2008 – Petris is pleased to announce that John Wearing has joined the company as Vice President. In this new role, John is responsible for product management and marketing. His in-depth technical knowledge of exploration and production will play a key role in helping Petris align itself to better serve the needs of our customers and the market as a whole.

John brings with him extensive industry background and knowledge, having held marketing and sales positions in a number of other major software companies as well as being technically proficient in a broad range of areas including seismic processing, interpretation systems, reservoir management, drilling and economics. John holds a B.Sc. in Geology and Geophysics from Nottingham University in England.

About Petris Technology, Inc.:

Petris offers game-changing software coupled with focused professional services to Oil & Gas and Pipeline companies. We give geoscientists, production and safety engineers tools to change their game for greater rewards in running operations and making technical decisions about key assets. Petris provides practical, real-world IT-based solutions for energy clients leveraging its expertise in data management, geo-technical applications, geospatial information systems (GIS) and professional services. Through a unique vendor-neutral approach and expertise in service-oriented architecture, Petris designs and deploys innovative technology that integrates data from diverse data stores to enable better decision making and application transparency. Taken together, Petris is leading the way into a new era in integration, data and application management.
