

PetrisWINDS ZEH Plot Express Now Supports iSys iTerra TL1290 Multiple Width Log Printer

Providing More Accurate Color Matching and Precise Font Rendering

HOUSTON, TX, July 6, 2010 – Petris Technology, Inc. (www.petris.com), a leading supplier of data management solutions and geosciences applications to the global energy industry, is pleased to announce that PetrisWINDS ZEH Plot Express now supports the new high speed iTerra TL1290 multiple width log printer by iSys.

PetrisWINDS ZEH Plot Express provides a scalable and flexible solution for all technical printing, manages printing from a diverse environment of applications to many different printers, and offloads file processing from the workstation and printer to a print server. New options have been added to PetrisWINDS ZEH Plot Express that leverage the high speed and enhanced accuracy of the iTerra TL1290 giving oil and gas companies accurate color matching of the screen images and precise font rendering.

"Petris customers continue to benefit from our decade long partnership with iSys," said John Wearing, Petris vice president of product management. "The PetrisWINDS ZEH Plot Express solution coupled with the iTerra TL1290 will clearly provide customers outstanding results."

"iSys is proud to partner with Petris to provide the oil and gas industry a best of breed, high speed log printing system." Says Terry Reese, iSys Worldwide Director of Sales. "Whether you are printing well log data, reservoir or composite logs, the iTerra TL1290 is the most cost effective way to print. The iTerra TL1290 is designed to give you the advantage of doing more, in less time with unrivaled results. And, our partnership with Petris and PetrisWINDS ZEH Plotting Solutions helps companies realize that value."
