

PetrisWINDS® NOW!

PetrisWINDS NOW!™ is your Web-based work environment featuring vendor-neutral on-demand software.

PetrisWINDS NOW! is a Web-based platform offering vendor-neutral, on-demand (ASP/SaaS) applications for the energy industry via the Internet. Simply put, you get all the benefits of using a software application without the costs associated with purchasing, installing, testing, and supporting it.

With the addition of other Petris products, including PetrisWINDS Enterprise, a data management and integration software package, PetrisWINDS NOW! brings together effective integration, data, and application management. This combination creates a "solutions-on-demand" approach for an individual, departmental, or enterprise-wide problem.

PetrisWINDS NOW! offers applications addressing all segments of the oil & gas industry:

Geology, Geophysics & Petrophysics	Refining & Petrochemical
Reservoir Engineering & Simulation	Process & Facilities Engineering
Drilling Engineering	Naval Architecture & Structural Engr.
Completion & Production Engineering	Public Utility & Electric Co-Op
Project Management & Collaboration	Knowledge Management
Marketing, Regulatory & Financial	News Service & Information
Data Management	

ALLIANCES

The benefits of PetrisWINDS NOW! are numerous. By putting a single PetrisWINDS NOW! contract in place a company can:

- ▶ Have affordable and immediate access to "fit-for-purpose" software
- ▶ Reduce capital expenditures
- ▶ Extend the life of existing hardware
- ▶ Make critical applications available at home, office, or remote locations
- ▶ Access the most recent version of the software as it becomes available
- ▶ Add software & users as needed to meet changing business requirements
- ▶ Reduce internal support requirements

The image shows two screenshots of the PetrisWINDS web interface. The left screenshot is the login screen, featuring the Petris logo at the top left, a navigation menu with 'Support' and 'Login', and a central login form with fields for 'Username' (containing 'docs') and 'Password' (masked with dots). A sidebar on the left lists navigation options: 'Login', 'FAQ', 'Getting Started', and 'Application Hosting'. The right screenshot shows the post-login desktop environment, displaying a grid of application icons under the heading 'Applications'. The icons include 'Utilities', 'Admin Desktop 55', 'BIS', 'CTLife', 'CWear', 'CasingCK - Cadet', 'Cement', 'Centra', 'Chronos 2', 'Comet', 'DDrag', 'DPLife', 'Energy Conversion', 'EquiPoise', 'GTemp', 'GasPal', 'GasPro', 'GasPro SWE', 'GasPro eCorp', and 'Gastar'. A footer at the bottom of the login screen contains links for 'Site Map | Terms & Conditions | Privacy Statement | ? 2006'.

Login screen provides intuitive access, help, and information on applications available for users and those interested in learning more about what PetrisWINDS NOW! offers.

Post-login displays your desktop for work. Only the applications you subscribe to will be displayed on the desktop.
